GLOBAL MENTAL HEALTH:
GLBH 171R

Dr. Janis H. Jenkins
Winter 2020

Course Description:

What is global mental health? What are current mental health issues globally? How do cultural, social, political, and economic factors shape individual mental health and illness experience? We examine these and other key questions in this innovative online course created by renowned faculty across UC campuses.

Topics include:

- Psychotic-related disorders
- Depression, Anxiety, PTSD, Substance Use
- Indigenous healing
- Psychosocial interventions
- Psychopharmacology
- Climate change & mental health
